CAREER OBJECTIVE

B.Com student with hands-on experience in **Python**, **SQL**, **Power BI**, and **Excel**. Skilled in data cleaning, **EDA**, dashboard development, and business intelligence. Backed by certifications in Data Analytics, SQL, Power BI, and Generative AI. Experienced in using Generative AI to improve productivity and analytical workflows. Seeking a Data Analyst role to contribute to data-driven business decisions.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)

Databases: SQL, MySQL

Visualization: Power BI, Microsoft Excel

Tools: Git, GitHub, VS Code, Jupyter Notebook

AI Tools: ChatGPT, GitHub Copilot, Google Gemini & Others

PROJECTS

Customer Shopping Behavior Analysis

Python | PostgreSQL | SQL | Power BI

- Analyzed **3,900+** shopping transactions using Python.
- Cleaned and transformed data using Pandas.
- Loaded data into PostgreSQL and performed SQL analysis.

- Built an interactive Power BI dashboard.
- Generated business insights on customer behavior, discounts, and revenue.

Customer Churn Analysis

Python | SQL | Matplotlib | Seaborn

- Connected SQL database with Python and analyzed customer subscriptions.
- Calculated churn KPIs and identified an overall churn rate of **28.6%**.
- Found monthly churn (**55.6%**) vs yearly churn (**8.3%**).
- Recommended retention strategies to reduce revenue loss.

E-Commerce Sales Analytics

Python | Pandas | Matplotlib | Seaborn

- Identified peak sales periods and top-selling products.
- Automated monthly reporting using Pandas.
- Created visualizations to support business decisions.

VIRTUAL EXPERIENCE

Tata Group (Forage) | Data Analytics

- Performed EDA and customer risk analysis using Python.
- Built reports and dashboards for business insights.
- Used Generative AI to improve coding and analytical workflows.

Deloitte (Forage) | Data Analytics & Visualization

- Analyzed business datasets using Python.
- Developed KPI dashboards and business reports.
- Presented analytical insights using data storytelling.
