## PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Python, SQL, Power BI, and Advanced Excel, specializing in data cleaning, EDA, and automated dashboard development. Certified in Full-Stack Development, with a proven track record of translating complex data into actionable business insights. Adept at leveraging Generative AI tools to optimize analytical workflows, accelerate debugging, and enhance productivity.

## TECHNICAL SKILLS

- Programming & Libraries: Python (Pandas, NumPy, Matplotlib, Seaborn)
- Databases & Querying: SQL, MySQL, PostgreSQL
- Data Visualization & BI: Power BI, Microsoft Excel (Advanced formulas, Pivot Tables)
- Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Netlify
- AI Productivity Tools: ChatGPT, GitHub Copilot, Google Gemini

## PROJECTS

### Customer Shopping Behavior Analysis (Python | SQL | Power BI)

- Engineered an end-to-end pipeline to analyze 3,900+ retail transactions, performing data cleaning via Pandas.
- Loaded processed datasets into PostgreSQL and executed complex SQL queries to segment customer demographics.
- Designed an interactive Power BI dashboard tracking revenue and discount impacts to improve marketing strategies.

### **Customer Churn Analysis (Python | SQL | Matplotlib)**

- Connected SQL database with Python to analyze subscriber metrics and identify key operational pain points.
- Calculated critical KPIs, isolating an overall churn rate of 28.6% (monthly 55.6% vs. yearly 8.3%).
- Formulated data-driven retention strategies targeting high-risk subscribers to mitigate revenue loss.

### **E-Commerce Sales Analytics (Python | Pandas | Seaborn)**

- Analyzed large-scale e-commerce datasets to uncover seasonal peak sales and top-performing product categories.
- Automated monthly reporting workflows using Pandas, significantly reducing manual data compilation time.

## **VIRTUAL EXPERIENCE**

### **Tata Group (Forage) | Data Analytics Virtual Experience**

- Conducted EDA and risk assessments using Python, and developed dashboards to communicate metrics to stakeholders.
- Integrated Generative AI frameworks to refactor scripts and decrease code debugging time.

### **Deloitte (Forage) | Data Analytics & Visualization Virtual Experience**

- Analyzed corporate datasets utilizing Python to establish core performance indicators and strategic metrics.
- Designed high-impact KPI dashboards and applied data storytelling techniques to present insights to management.

## **EDUCATION**

- Industry Ready Certification in Full-Stack Development | NxtWave CCBP 4.0 Academy
- Bachelor of Commerce ([B.Com.](#)) | University of Delhi (School of Open Learning)
